REFERENCE(S)	<p>REFERENCES: A. BOEA-79879, dated 13 August 1965. <i>P10/file</i> B. BOEA-19513, dated 19 April 1965</p> <p>1. The meeting with DS-167 requested in Reference A took place in Goettingen on 24 August 1965 in DS-167's laboratory office. He proved to be extremely cooperative, and we conducted a thorough debriefing on the operational possibilities offered by his former colleagues at Identity-1. In particular, Identity-2 would appear to be a valid recruitment target (as suggested in Reference B) because, according to DS-167, he is the brightest younger up-and-coming laser scientist in East Germany and has the possibility of close contact with laser and optics work at Identity-3, which is listed as an intelligence collection target in CIBL C-DC5-52222, 1 October 65 - 31 January 66.</p> <p>2. We would like to propose the following operational plan for the utilization of DS-167. The undersigned would like to arrange another meeting with DS-167, but in Berlin. And, this time we would like to talk to him alone, i.e., without his CASEZONE handling officer being present. We would like CASEZONE to ask DS-167 if he and his fiancée, Identity-4, could come to West Berlin at our expense to meet [] again. (DS-167's work and teaching schedule may not permit his making the trip, even on a weekend, in which case the undersigned will have to travel to Goettingen.) At the meeting we will propose to DS-167 that he act as a channel to Identity-2 to effect his eventual recruitment as a reporting source. For this purpose he would, in the future, deal directly with the undersigned in any matters involving Identity-2 or any other of his former colleagues at Identity-1 who may become operationally available.</p> <p>3. This plan, of course, is subject to CASEZONE concurrence and does not preclude CASEZONE's maintaining contact with DS-167. Please inform us if you are amenable to this arrangement. In the meantime we are requesting the necessary operational approvals on DS-167 and initiating traces on Identity-2.</p>
